2. The following is an Examiner statement of reasons for allowance. The prior art of record (Takafumi et al, EP 472806) . Takafumi teaches (providing a group of images in chronological order (plurality of consecutive images in a time series including a color histogram with a respect to a certain threshold , see page 2 lines 50/58) but fails to teach or suggest the evaluating the clustered images against a final condition related to at least one of a predetermined group maximum for the number of smaller groups and a predetermined maximum number of isolated pictures, whereby the smaller groups are classified as events if the final condition is met in combination into others features and elements of claims 2-10; thus placing the application in condition for allowance.

Any comments considered necessary by applicant must be submitted on later than the payment of the issue fee and to avoid processing delays should preferably accompany the issue fee. Such submissions should be clearly labeled, comments on statement of reasons for allowance.
